1. Charity Information

music as therapy
international

This ePoster has been created by Music as Therapy International, a British registered charity which has been working with music therapists and caregivers to embed music into the care of people in vulnerable situations worldwide for over 25 years.

2. Where we work

Click on each image to find out more about our activities in each country.

Romania

We have been working in Romania since 1995, playing a key role in the development of music therapy within the country.

We have been working alongside the music therapy profession in the UK across a broad range of beneficiary groups since 2005.

United Kingdom

2. Where we work

Click on each image to find out more about our activities in each country.

Occupied Palestinian Territories

We have been working in the Occupied Palestinian Territories since 2009, helping caregivers to support children living alongside violence and displacement in the region.

Rwanda

We have been working in Rwanda since 2010, supporting caregivers to introduce music for children and young people with disabilities.

2. Where we work

Click on each image to find out more about our activities in each country.

Georgia

We have been working in Georgia since 2011, supporting the early development of music therapy in the country.

We have been involved in Myanmar since 2012, supporting caregivers to introduce music for children.

Myanmar

2. Where we work

Click on each image to find out more about our activities in each country.

Ethiopia

We have been supporting pioneering care settings in Ethiopia since 2018.

India

We have been working in India since 2015, supporting caregivers to introduce music for children with disabilities and people living with dementia.

2. Where we work

Click on each image to find out more about our activities in each country.

Jordan

We have been working in Jordan since 2022, supporting caregivers to introduce music for children with disabilities.

Other
International

Our activities and sharing of best practice often have an impact beyond the key countries where we focus our attention.

3. Website & Social Media

music as therapy
