

International  
Partner Survey  
Report: India

# India

*Music as Therapy International* has been working in India since 2015. India was the first country where *Music as Therapy International* worked where trainings to use music therapeutically already existed, so the first Introductory Training projects were delivered by a local music therapist alongside a UK therapist.

## Impact

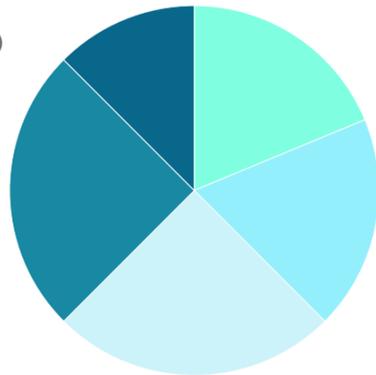

2 out of 4 care settings in India are where our Partners who participated in the survey are working and using music.

29 vulnerable people have the opportunity to access the music sessions ran by our Indian Partners who returned completed questionnaires.

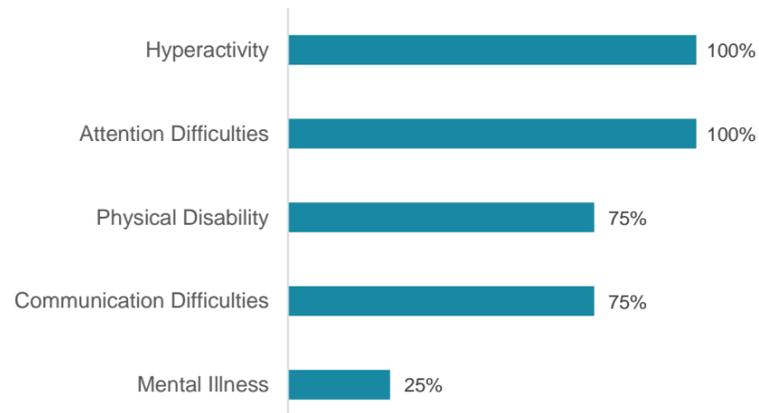

## The vulnerable people our Partners work with

- Very Young Children (0-5 years)
- Young Children (6-12 years)
- Adolescents (13-19 years)
- Young Adults (20-25 years)
- Adults (26-65 years)

The pie chart to the left represents the age groups of the vulnerable people who participate in the music sessions ran by our Indian Partners.

The bar chart on the right shows the percentage of our Indian Partners who are using music with the wide-ranging vulnerable people who have the various difficulties.

## Music sessions

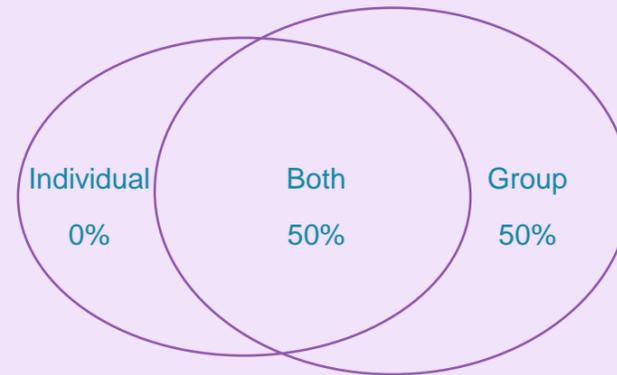

100% of our Indian Partners who returned a completed questionnaire are still using music.

Music sessions are a very important part of our Partners' work and their care settings' timetable.

75% of our Indian Partners are running music sessions once a week, and 25% are using music once a month.

100% of our Indian Partners have shown colleagues how to use music and talk to colleagues or other people about using music.

The Venn diagram on the right displays the percentage of our Partners in India who are either using music with individuals and/or in groups.

## Impact of Introductory Training project

Since our Indian Partners' Introductory Training project:

100% of our Partners agree that what they have learnt has changed how they teach, work or provide care.

100% of our Partners have noticed that what they have learned has changed their practice more widely than just in music sessions.

100% of our Partners are proud of their music sessions.

100% of our Partners are more confident.

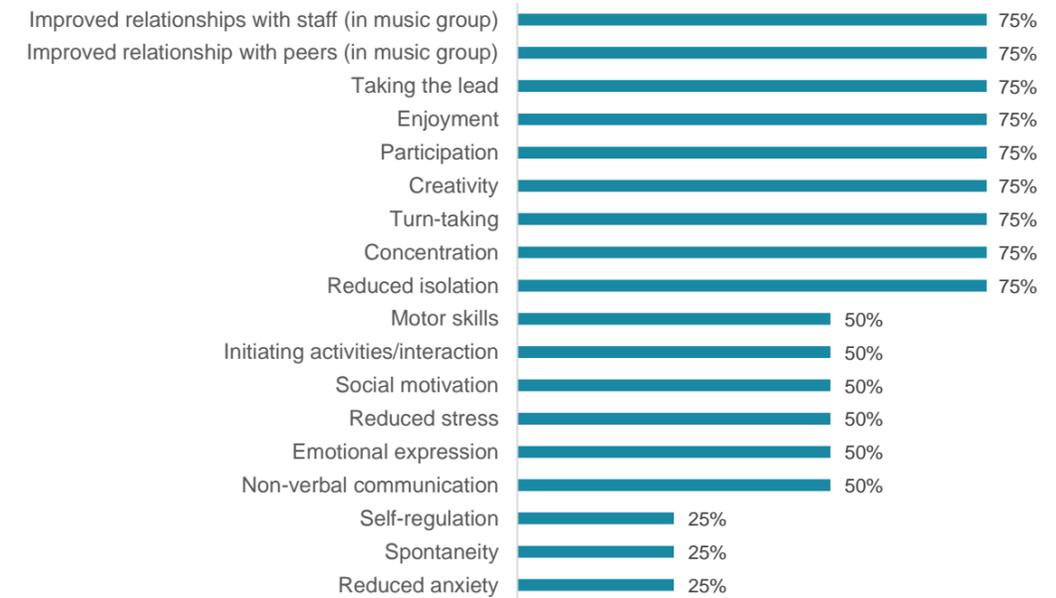

100% of our Partners have more responsibility now.

100% of our Partners are more committed to their work.

"I will see good changes in these children like sharing, social interaction with others to build the relationships with music therapy."  
(Autism Research and Multidisciplinary School, 2020)
