## **The One Minute Music Survey: help us make music relevant to care today**

Below are a few (very quick!) questions from *MasT* for you - our partners in music.

We know this remains an incredibly challenging time for care professionals, and don't want to take up any more of your time than is needed. This should only take **1 minute to complete**, but it would mean a lot to us to hear your perspectives.

These questions are designed to get a sense of where things are, so we can be ready to support music when you are ready to use it. We are also **asking for your advice**: we would also like to offer other care professionals an accessible way of doing music, and as we cannot bring training *into* care settings, your understanding of how music could or should be used in a COVID context is hugely appreciated.

You do not have to answer everything - but please be as honest as you like! We really do appreciate your input. There are places where in addition to your answers you can tell us if you'd be happy to talk more about specific aspects of your experience. If you tick one of these boxes, we will get in touch to chat via email or to arrange a time to speak with you. This can be entirely at your convenience.
